Optimize network growth - Join vPeer today!

- Our unique algorithm identifies matches between members - or allows search by name or skills
- Members identify what they want to LEARN and TEACH

- Shift from Mentor-Mentee model, to dynamic vPeer Thought-Partners
- Members meet via vPeer's integrated text, video, and live collaboration platform.
- Members are virtual peers, with ratings and levels that make vPeer an engaging platform!

- Network shifts from hub-centered to interdependent model; members have access to network hub, to each other, and to vPeer Learn Bank of globally uploaded usable knowledge, articles, videos.
- Network accesses usage data and reports to better plan services and programming- towards stronger value-add for membership.
- Network and all members are in a continuous learning system.

**Shift from Hub and Spoke to an Interconnected Network!
